

Delegate Report
July 23, 2023

July Assembly:

The July Assembly was held and well attended. Representatives from eleven groups were present and there were two observers. It was great to hear about the activities and innovations of members across our region! Thank you to the dedicated GSRs and Regional Officers for a wonderful Assembly.

Our dedicated and much-appreciated Delegate, JT, has passed the torch, and I was elected as Delegate, so now we are looking for a new Alternate Delegate to step up. I can tell you all that it is a wonderful way to begin service at the world level. The duties are not difficult. What is involved is to come to the Regional Service Committee once a month, to assist the delegate as needed, You could also join a regional or world service committee of your choosing as you feel led. Most importantly, when the world service conference comes, we would both go, and you would learn about it! Which is a wonderful experience. So please think about it, and if you are interested, send me an email at delegate@naranoncentralca.org

This is the job description from our Regional Guidelines:
Alternate Delegate Duties:

- Perform delegate's duties in delegate's absence
- May assist with delegate's duties
- Attend RSC & RSA, and when invited, area meetings
- May serve on one or more RSC subcommittees, and may serve as chair of an RSC subcommittee
- Attend WSC, upon approval by region and WSO, to familiarize with WSC process
- Become an active member of one or more world service committees

I also want to report that I did step down from being NaraTeen Process Person, (NTPP), and Stephanie K was elected as our new NTPP. Also, our budget for the rest of the year was approved, and approved to carry over to next year. I am so grateful to be in such a well-organized region.

World Service Literature:

Something new in WS literature store is the Gift Card option. We now can buy a gift card, which could be very useful in virtual meetings.

Thank you for allowing me to be of service, and I plan to begin visiting virtual groups as time allows to familiarize myself more with the region.

In service,

Sunny J
